SUMMARY

Backend developer working in C#, .NET, and SQL on production systems that process state tax and unemployment claims. I've led a 250-million-record database migration and built full-stack side projects. Starting an MS in Computer Science at Georgia Tech.

EXPERIENCE

FAST Enterprises — Software Developer (Centennial, CO) Jul 2025 - Present

- Develop and maintain core back-end software in C#, .NET, and SQL for state tax and unemployment claims systems.
- Oversaw a large database restructure that migrated 250 million records.
- Build client-requested features for the Montana Department of Labor & Industry and present a monthly fraud report.
- Lead a team of analysts reviewing claims and issuing fraud recommendations, stopping \$200M+ in identity theft annually.

Midway USA — Logistics (Columbia, MO) Jan 2024 - Dec 2024

- Worked with a team to ensure product delivery, focusing on productivity and performance metrics.

SKILLS

Languages: C#, SQL, Python, JavaScript, Java, C++

Frameworks & tools: .NET, Flask, three.js, MongoDB, Git, Docker, Linux, CI/CD, Agile

PROJECTS

[Globe.us](#) May 2024

- Daily geography quiz game on a 3D globe (three.js) with a custom MongoDB back end.

[Podsnip](#) — TigerHacks, 2nd place of 230 participants Nov 2023

- Led development of a Chrome extension that clips and transcribes podcast audio.
- Built a Python Flask back end that transcribes audio with the Google Cloud Speech API.

CandidateGauge — Mizzou Data Science AI Hackathon, 3rd place May 2023

- Built an applicant tracking system with OpenAI's API and Hugging Face that analyzes applicants in context rather than by keyword matching (Python, Tkinter).

EDUCATION

Georgia Institute of Technology — MS, Computer Science Expected May 2028

University of Missouri - Columbia — BS, Computer Science, GPA 3.5 Jan 2023 - May 2025

High Dean's List, all semesters. Coursework: Data Structures & Algorithms, Database Systems, Software Engineering, Object Oriented Programming, Computer Networks.

ACTIVITIES

Greenstand — IT Development Contributor Nov 2025 - Present

Mizzou Robotics Club — Member Jan 2023 - May 2025

Eagle Scout Apr 2019
